

# SmartSMS powered by **mobivity**

## Let SmartSMS Track Who, When, and Where With Mobile Offers

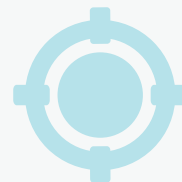

## Send Mobile Offers With **Security** and **Attribution** In Mind for the First Time

SmartSMS quickly and easily allows you to send mobile offers with automatically generated one-time use codes, enhancing the security, ease of tracking, and effectiveness of your existing SMS campaigns.

### Time-Sensitive Offers

Control when your offer is sent and how long the offer remains valid after being redeemed.

### Location Specific

Restrict offer redemption based on store or market location to drive traffic where you need it.

### Enhanced Mobile Security

Our one-time use links ensure that your mobile offers cannot be re-used or shared.

### Tracking and Attribution

Connect who is redeeming to what they're buying and where they're buying it when redeeming your mobile offers.
